

SPA WATER COMFORT SYSTEM

The Spa Water Comfort System is designed by URBAN LIFE to provide sparkling clear, soft silky spa water. This weekly program will make it easy for you to provide healthy and safe water for you, your family and your friends..... Enjoy!

START-UP – NEW WATER FILL

Note: When adding chemicals, have water circulating on low speed with both aeration and cover off. Wait 30 minutes before entering the spa.

#	Chemical	Quantity	Purpose
1	SPA WATER ENHANCER	Add 150 g (10 Scoops) Larger scoop	Makes spa water soft and silky
2	CHLORINE SPA PUCKS	Place 6 spa-pucks into SPA DISPENSER . Open dispenser to #2	Sanitizes spa water making it safe for bathers
3	SPA SHINE	Add 3 scoops	Makes water sparkle
4	SPA GLO or MSR	Add 50 ml of SPA GLO or 25ml of MSR (1 Cap)	Protects against scale and stains
5	When steps 1-4 are complete, have your water tested by URBAN LIFE .		

WEEKLY CARE

Note: Follow these steps to maintain the quality of your spa water and be ready for use at any time.

#	Chemical	Quantity	Purpose
1	Test PH. If required, lower or raise by using EASY DOWN or EASY UP . 1 Cap per color		
2	SPA WATER ENHANCER	Add 45 g (3 Scoops) Larger scoop	Makes spa water soft and silky
3	CHLORINE SPA PUCKS	Place 6 or less spa-pucks into SPA DISPENSER . Open dispenser to #2	Sanitizes spa water making it safe for bathers
4	SPA SHINE	Add 3 scoops – May require more depending on bather load each week.	Makes water sparkle
45	SPA GLO or MSR	Add 25 ml of SPA GLO or 5ml of MSR (partial cap / splash)	Protects against scale and stains
5	When steps 1-4 are complete, have your water tested by URBAN LIFE .		

WEEKLY CARE

- Have **URBAN LIFE** test your spa water monthly.
- Keep filters clean and debris free
- Follow **URBAN LIFE**'s recommendations for completely replacing water.
